### Beast 1333 - Unstoppable lyrics

[Verse 1: DISL Automatic]

Hey yo, I educate and elevate my mental state, I'm in the zone  
Get it straight, I'm heavy weight, I demonstrate how I have grown  
Knowledge on the microphone, that's what I be droppin'  
Don't care about that fashion so don't as me what I'm coppin'  
Don't ask me what I'm wearin', don't ask me what I'm drivin'  
I ain't flashing off no diamonds but I'm nasty with the rhymin'  
I'm trying to mastermind a plan to wake up all my peeps  
And I won't be satisfied until we take it to the streets (Get BIG On  
'Em!!!)

People you better get your heads straight  
If you are not Getting BIG then homie you just dead weight  
If you are not ready for the message that I bring you  
Then turn the music off and let your ignorance continue  
I don't mean to offend you but I'm not the one to bite my tongue  
When the war is at your door what will you do fight or run?  
Now our time has come, together we're unstoppable  
History has shown to us that anything is possible  
Empires have risen and the ones who rule are the elite  
All of them have fallen 'cause they never thought they'd see  
defeat  
They know that we're stronger so they hope and pray that we  
retreat  
But there's no surrender, I'm a general I lead my peeps  
Now it's time we fight peacefully  
Educated G so I know my rights legally  
Don't try deceiving me, your lies can not affect me  
My mind is like my armor so my knowledge will protect me  
DISL!

[Verse 2: Genocide]

We're unstoppable, united we have got the numbers  
Get the riot gear ready, bring your best gunners  
Me and my brothers, on the front line attack mode

Combat ready for my liberty to uphold  
f\*\* the government they dont really represent us  
Their working for the corporations and the one percenters  
Trying to tell us, how to live and control your life  
So many lies, history we need to re-write  
You need to elevate your mind to a higher state  
End of days be upon the entire human race  
Dont be a slave, sleepwalking till your in the grave  
While the new world continue to take shape  
What kind of place are you leaving for you children  
When you look at all the fema camps they building  
When you look at all the laws that they bringing in  
Next, they'll be embedding a microchip beneath your skin

Begin the revolt, we can only win together  
Never surrender, never bow to your oppresor  
They want us dumbed down, weak and to be afraid  
But I rather die on my feet then be a slave  
We need a revolution, we need a uproar  
Cuz it dont really matter who the f\*\* you vote for  
The shadow government, still running the business  
The only way that we can change it is with a resistance  
Get em!!!!

[Verse 3: Beast 1333]

I am the number #1 Emcee  
That every single rapper  
Knows and Fears  
Beast 13 to 3 to the 3  
Switching Gears  
Gonna make this Clear  
Fitta been six Years  
Since the Mark of the Beast  
And the birth of this Here  
For the Beast to appear  
The signs of the Times  
And the signs of the Ending  
The Ending is Near  
For the people to Cheer  
Take em down a new path  
To the New Frontier  
My chosen career  
There's sheep to shear

All over the Planet  
All over the sphere  
Constructing a Rhyme  
That causes a disturbance  
In the Fabric of Time  
They'll turn on a Dime  
The Beast a Better Design  
I'm at my pinnacle Prime  
My lyrical Mind  
Is on a Knowledge Quest  
I'm at my physical best  
A critical Mess  
The path that i Suggest  
To pa\*\* this Cynical Test  
Won't give it a Rest  
You tired on the Mic  
Don't worry give it to Me  
For years i've been Indoctrinating  
Teaching how life  
Really Could Be  
I'm making 'em see  
The Lamp that Guide Shine  
The rhymes awaken the Blind  
Ahead of My Time  
The rawest Unrefined, My Grind  
The Lyrics Combine  
To form alliances  
Collabos with my brother Disl  
This world is full of Suffering  
And people that are Evil  
We are heralds for the Youth  
I ain't record this in a Booth  
I metaphysically Transduced  
My vocals on this track  
The Truth, The Proof  
Is right up in our faces, Places  
Full of Army Bases, Aces  
Dropping bombs on kids  
But ain't no Hague tribunal Cases  
Ain't no Justice, ain't no Peace  
There's plenty more they have in Store  
They start the conflicts  
Then Reap the Ma\*\*ive Profits  
From the Wars

We Breaking the Laws  
& ripping apart they're Jaws  
We Stars  
Flipping them Awesome Bars  
The Gods  
Whipping em at the Scars  
We Are  
Ripping it for the Cause  
(Get Big on Em)
